FINAL

Glenn Springs Holdings, Inc.

Baseline Human Health Risk Assessment

Newark Bay Study Area

December 2019

Revision 3

Appendices

Appendix A

APPENDIX A
ANALYTICAL DATA FOR ACCESSIBLE SURFACE SEDIMENT, SURFACE WATER, AND TISSUE SAMPLES USED IN THE BASELINE HUMAN HEALTH RISK ASSESSMENT

Table A-1	Analytical Data for Butyltins – NBSA Accessible Surface Sediment
Table A-2	Analytical Data for Pesticides – NBSA Accessible Surface Sediment
Table A-3	Analytical Data for Herbicides – NBSA Accessible Surface Sediment
Table A-4	Analytical Data for Metals – NBSA Accessible Surface Sediment
Table A-5	Analytical Data for Polycyclic Aromatic Hydrocarbons – NBSA Accessible Surface Sediment
Table A-6	Analytical Data for Volatile Organic Compounds – NBSA Accessible Surface Sediment
Table A-7	Analytical Data for Semivolatile Organic Compounds – NBSA Accessible Surface Sediment
Table A-8	Analytical Data for Total Petroleum Hydrocarbons – NBSA Accessible Surface Sediment
Table A-9	Analytical Data for Polychlorinated Biphenyls (as Aroclors) – NBSA Accessible Surface Sediment
Table A-10	Analytical Data for Polychlorinated Biphenyls – NBSA Accessible Surface Sediment
Table A-11	Analytical Data for Dioxins and Furans – NBSA Accessible Surface Sediment
Table A-12	Analytical Data for Butyltins – NBSA Surface Water
Table A-13	Analytical Data for Pesticides – NBSA Surface Water
Table A-14	Analytical Data for Metals – NBSA Surface Water
Table A-15	Analytical Data for Polycyclic Aromatic Hydrocarbons – NBSA Surface Water
Table A-16	Analytical Data for Volatile Organic Compounds – NBSA Surface Water
Table A-17	Analytical Data for Semivolatile Organic Compounds – NBSA Surface Water
Table A-18	Analytical Data for Polychlorinated Biphenyls – NBSA Surface Water
Table A-19	Analytical Data for Dioxins and Furans – NBSA Surface Water
Table A-20	Analytical Data for Butyltins – NBSA Tissue
Table A-21	Analytical Data for Pesticides – NBSA Tissue
Table A-22	Analytical Data for Metals – NBSA Tissue
Table A-23	Analytical Data for Polycyclic Aromatic Hydrocarbons – NBSA Tissue
Table A-24	Analytical Data for Semivolatile Organic Compounds – NBSA Tissue
Table A-25	Analytical Data for Polychlorinated Biphenyls (as Aroclors) – NBSA Tissue
Table A-26	Analytical Data for Polychlorinated Biphenyls – NBSA Tissue
Table A-27	Analytical Data for Dioxins and Furans – NBSA Tissue

Attachment A-1	Data Usability Worksheet-Sediment, Blue Crab and Softshell Clam Tissue
Attachment A-2	Data Usability Worksheet-Fish Tissue
Attachment A-3	Data Usability Worksheet-Sediment and Porewater Chemistry, Toxicity Testing, and Benthic Invertebrate Community Analysis
Attachment A-4	Data Usability Worksheet-Sediment and Surface Water Data Collected by AECOM
Attachment A-5	Newark Bay Shorline Segments with Access and Corresponding Sediment Sample Number from Crab/Clam QAPP and SQT QAPP (Table 2 from SQT QAPP)
Attachment A-6	NBSA Blue Crab Fractional Compositions

Method	Analyte	CAS	Unit						

Notes:
J - Estimated Concentration
R- Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Method	Analyte	CAS	Unit						

Notes:
J - Estimated Concentration
R- Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R- Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R- Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Method	Analyte	CAS	Unit					

Notes:
J - Estimated Concentration
R- Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Method	Analyte	CAS	Unit					

Notes:
J - Estimated Concentration
R- Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Method	Analyte	CAS	Unit					

Notes:
J - Estimated Concentration
R- Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
Not calculated - Fewer than 3 detected results
(a) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.

Notes:
J - Estimated Concentration
R - Rejected data
U - The analyte was analyzed for, but was not detected above the reported sample detection limit.
(a) - Sum of detected and non-detected congeners. All values were as originally reported.
(b) - Kaplan-Meier Total Equivalent Concentration calculated using EPA's KM TEQ Calculator.
